Preface

This atlas has been prepared to assemble and consolidate information on the occurrence of brook trout (*Salvelinus fontinalis*) streams and rivers in Ontario. Information sources include provincial aquatic habitat inventory records (AHIS), data from fisheries assessment (e.g., electrofishing) projects archived in FISHNET, records from the Royal Ontario Museum (ROM) database, records from the HABPROG database, and listings from the Natural Resources Values Information System (NRVIS). A draft listing of waters was sent out to field staff across the province for review. Many additions and revisions were received after field review.

This atlas contains only those streams and rivers which contain self-sustaining brook trout populations. Populations which are maintained through plantings of hatchery-reared trout are not included. It should also be realized that, in some of the waters listed, brook trout may only be present in one portion (usually the headwater area) of the stream. This information has been outlined where known. Several streams and rivers were situated in more than one Ministry of Natural Resources administrative district (Figure 1). For consistency, the water has been identified for that district where the mouth of the particular stream or river was located. Location coordinates of streams and rivers were based on listings in the Gazetteer of Canada where available.

Table 1. Location of brook trout streams and rivers based on Ministry of Natural Resources administrative districts.

Region	District	Streams	Rivers	Total
Southcentral	Algonquin	46	10	56
	Aurora	45	13	58

Figure 1. Ontario Ministry of Natural Resources administrative districts and regions.

A total of 1,663 brook trout streams and rivers were identified during this exercise (Table 1). In a similar exercise for Ontario lakes, a total of 2,110 waters were identified as containing brook trout in 1980 (MNR 1980). Undoubtedly, there are errors and omissions in this listing. In some portions of the province (e.g., Algonquin Park, Algoma, Lake Nipigon drainage, etc.) I realize that there are many more brook trout streams and rivers than listed herein. The goal of this exercise was to create an initial database which could be modified as new information becomes available.

Steven J. Kerr
Fisheries Section
Fish and Wildlife Branch
November 2003

Acknowledgements

Ola McNeil provided listings of brook trout waters from various sources in the central fisheries database, MNR, Peterborough. Rene Blier prepared a listing of brook trout waters identified in the provincial Natural Resources Values Information System (NRVIS) database. Scott Gibson provided a listing of brook trout streams from the HABPROG database. Erling Holm submitted a listing of brook trout waters from the Royal Ontario Museum database.

I am extremely indebted to the MNR staff who reviewed information contained in this atlas. This includes Brad Allan (Midhurst District), Evan Armstrong (Nipigon District), Lesley Barnes (Red Lake District), Stephen Belfry (North Bay District), Bryce Bertrand (Chapleau District), Steve Bobrowicz (Bancroft District), John Boos (Southcentral Region), Chris Chenier (Cochrane District), Ross Cholmondeley (Peterborough District), Jack Colonnello (Aylmer District), John Connor (Thunder Bay District), Barry Corbett (Kenora District), Michael Deschamps (Thunder Bay District), Kathy Dodge (Midhurst District), Ben Dover (Nipigon District), Kelly Eggers (Parry Sound District), Darren Elder (Dryden District), Larry Ferguson (Kirkland Lake District), Jennifer Gashinski (Nipigon District), Mick Gauthier (Cochrane District), Jeri Graham (Sioux Lookout District), Brenda Harrow (Sudbury District), Tim Haxton (Southcentral Sciences Section), Don Hector (Aylmer District), Don Hughes (Haliburton-Hastings Fisheries Assessment Unit), Pud Hunter (Aylmer District), Kathy Irwin (Bancroft District), Lisa Johnston (Nipigon District), Nathan Kirby (Guelph District), Mike Malhiot (Guelph District), Eric McIntyre (Parry Sound District), Andy McKee (Midhurst District), Jeff McNaughton (Kemptonville District), Marcel Pellegrini (Wawa District), Norm Quinn (Algonquin Park), Stefan Romberg (Aurora District), John Sadowsky (Hearst District), Steve Scholten (Thunder Bay District), Ray Schott (Dryden District), Hal Schraeder (Aylmer District), Karen Stokes (Timmins District), Robin Thompson (Wawa District), Jim Trottier (Sault Ste. Marie District), John Vandembroek (Fort Frances District), Milan Vukelich (Timmins District), and Anne Yagi (Guelph District).

Jack Imhof, Trout Unlimited Canada, is also thanked for his contribution to this atlas.
